Reference: CLEAN Contract No. N62472-03-D-0057  
Contract Task Order No. 26

Subject: Draft Final Feasibility Study – Revision 1  
Former Robert E. Derecktor Shipyard  
Naval Station Newport, Newport, Rhode Island

Dear Mr. Colter:

Enclosed you will find four copies (two CD and two paper) of the Draft Final Feasibility Study – Revision 1 Report for the Derecktor Shipyard Site (Site 19) at the Naval Station Newport, in Newport, Rhode Island. This draft final Feasibility Study (FS) report is a revision of the final FS report for the site submitted in July 1999. This revised FS report has been prepared to incorporate additional marine sediment data collected since July 1999 and to address the USEPA's and RIDEM's outstanding issues with the 1999 FS report, as discussed at the NAVSTA Newport RPM's meeting/call of November 15, 2006.

In accordance with the task order, copies of this report have been provided to the persons on the distribution list below for their review and comment. If you have any questions regarding this material, please do not hesitate to contact me.

Very truly yours,

Diane M. Baxter  
Project Manager
